

JERIC SEMENIEGO

Quality Assurance & IT Support Analyst

Pasig City | +63 961 871 1368 | jeric.semeniego.work@gmail.com | [Portfolio](#) | [GitHub](#)

SUMMARY

QA and IT support professional with hands-on experience in manual testing, UAT support, regression checks, issue replication, ticket handling, and release validation. Strong in clear documentation, evidence capture, troubleshooting, and stakeholder coordination. Portfolio demonstrates practical QA artifacts across business workflow, banking, and fictional patch-testing case studies.

CORE SKILLS

QA Testing: Manual functional testing, regression testing, UAT support, smoke/sanity checks, defect retesting

Documentation: Test cases, scenarios, bug reports, RTM, test data, screenshots/evidence, test summary reports

Defect & Support: Issue replication, expected vs actual results, severity/priority, troubleshooting, escalation, follow-up

Tools: ServiceNow, Jira-style workflows, Excel, Google Sheets, GitHub, Chrome/Edge DevTools, Postman, SQL basics, Selenium/Python basics, SAP S/4HANA, SAP Business One

EXPERIENCE

Business Architect / Software Engineer | Accenture | May 2024 - July 2025

- Supported SAP S/4HANA business process validation, documentation, and release checks for enterprise project work.
- Executed manual and AI-assisted testing during system resets; confirmed workflow behavior and documented outcomes.
- Investigated process/ticket issues, captured evidence, and coordinated follow-up with Agile project teams.
- Produced technical documentation and testing notes to improve traceability, onboarding, and handover.

Account Manager Expert | iQor | January 2024 - March 2024

- Handled confidential client account concerns with accuracy, documentation discipline, and professional communication.
- Coordinated account-related follow-ups while maintaining compliance, trust, and service quality.

Technical Support Representative | TCL Online Services | July 2023 - October 2023

- Diagnosed user/system issues, documented recurring problems, and supported resolution tracking in a fast-paced environment.
- Verified fixes and service outcomes through manual checks, user communication, and issue follow-up.

Quality Analyst Trainee | TCL Online Services | February 2023 - June 2023

- Conducted manual testing, reliability checks, QA documentation, and IT support workflow validation.
- Built a basic production testing simulator using web design and system development practice.

PROJECTS

QA Portfolio - Manual Testing, Patch QA, and Banking Case Studies | Personal Portfolio / GitHub Pages

- Built non-confidential QA artifacts covering requirements, test plans, test scenarios, test cases, RTM, test data, defects, regression, UAT, execution reports, and release validation.
- Created representative case studies for a purchase approval workflow, fictional live-service patch testing, and banking account-balance validation.
- Applied functional, regression, smoke/sanity, exploratory, security-awareness, privacy, accessibility, localization, performance, and cross-platform test thinking.
- Mapped tools to testing work: Jira/ServiceNow for defects, Postman for API checks, DevTools for investigation, Sheets/Excel for test documentation, and Selenium/Python basics for automation awareness.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology - STI College San Pablo, 2023

Certifications: SAP Business One Basic & Advanced | ISO 9001:2015 QMS (2023)
