

JERIC SEMENIEGO

QA & IT SUPPORT ANALYST

Pasig City, Metro Manila, Philippines | +63 961 871 1368 | jeric.semeniego.work@gmail.com | <https://jericsemeniegowork-boop.github.io/portfolio/>

SUMMARY

QA and IT Support professional with experience in SAP S/4HANA support, ServiceNow ticket handling, business process validation, regression testing, UAT support, technical troubleshooting, and documentation. Strongest in manual QA, issue replication, defect reporting, release validation, and user support, with supporting exposure to SQL, Selenium, SAP tools, Postman/API checks, and web-based systems.

CORE SKILLS

Manual QA: Functional Testing, Regression Testing, UAT Support, Smoke/Sanity Testing, Defect Retesting, Test Reporting

Tools: ServiceNow, SharePoint, Excel/Google Sheets, SAP tools, SQL, Selenium, GitHub, Browser DevTools, Postman/API awareness

Support: Ticket Handling, Issue Validation, Escalation, Process Documentation, Client Coordination

AI Evaluation: PRD Review, Rubric-Based Assessment, Schema Compliance, Golden Path Review, Instruction-Following Checks

PROFESSIONAL EXPERIENCE

Business Architect / Software Engineer

Accenture | Hybrid | May 2024 - Jul 2025

- Supported SAP S/4HANA business process validation, ServiceNow ticket handling, documentation, regression testing, and UAT support.
- Investigated user access issues, failed workflows, incorrect data, process errors, system bugs, and patch/reset-related incidents.
- Handled around 10 tickets daily with validation notes, status updates, reports, and escalation coordination; performed regression and UAT around 3 times weekly using ServiceNow, SAP tools, SharePoint, Excel, SQL, and Selenium-supported checks.

Quality Analyst Trainee / Technical Support Representative

TCL Online Services | Onsite | Feb 2023 - Oct 2023

- Supported QA internship work through process research, web tool assistance, production workflow mapping, and documentation.
- Handled TCL appliance hardware/software support, resolving and documenting around 30 issues daily while escalating complex cases when required.
- Performed issue validation, basic testing, follow-up checks, and future-ready documentation using internal ticketing tools and TCL software.

Account Manager Expert

iQor Philippines | Onsite | Jan 2024 - Mar 2024

- Handled customer account support with accuracy, confidentiality, process compliance, issue documentation, account verification, and escalation handling in a fast-paced environment.

FREELANCE & PROJECTS

Technical Documentation & AI Evaluation Contractor

Scale AI / Outlier | Freelance, Remote | Apr 2026 - Present

- Freelance technical evaluation project involving PRD review, rubric-based assessment, schema compliance, golden path review, and AI output quality checks.

QA Portfolio - Manual QA Case Studies

GitHub Pages | Manual Testing, Banking QA, Game QA

- Built a non-confidential QA portfolio with purchase request, banking, and game QA case studies, including test cases, defect reports, regression/UAT checklists, testing coverage, and QA tools matrices.

CSE Review Studio - Mobile-First Exam Review Web App

HTML, CSS, JavaScript, LocalStorage, Vercel

- Built and manually tested a responsive exam review web app with 1,100+ practice questions, mock exams, topic drills, formula lessons, saved progress, notes, and mistake logs.

EDUCATION & TRAINING

Bachelor of Science in Information Technology | Bulacan State University | 2022

Senior Analyst Training | HCL | Oct 2025 - Dec 2025
